

RECORDS ARE BROKEN BY STEEL CORPORATION

Total Earnings for Last Three Months of 1915 Reach \$51,232,788.

AS \$105,000,000 IN BANKS

Profit of \$5,000,000 Is Turned Into Huge Surplus and Directors Are Unanimous in Restoring Common Stock to Old Dividend Basis.

NEW YORK, January 25.—United States Steel common shares were reported to their regular dividend status 5 per cent today when the directors unanimously declared a quarterly dividend of 1 1/2 per cent out of earnings for the last quarter of 1915. Total profits of \$51,232,788 for three months were the largest for any similar period in the history of the corporation. The dividend was the first paid in the second quarter of 1915, by \$5,729,833. The statement of earnings, no less than the action of a dividend, was in line with popular predictions, forecasts, having ranged from \$45,000,000 to \$50,000,000, although the latter figure was regarded as exaggerated. That some fair rate of dividend would be declared was foreseen in the recent decision of the corporation to increase the wages of its employees by 10 per cent and the offering of the common stock to employees on the profit-sharing plan.

PROFIT IS CONVERTED INTO ENORMOUS SURPLUS

The corporation's financial position was judged from the fact that it has cash in banks amounting to \$105,000,000, while its surplus for the quarter of 1915 amounts to more than \$23,000,000, as against a deficit of \$1,800,000 in the corresponding quarter of the previous year. In detail a last report of 1915 shows total earnings of \$51,232,788, net income of \$3,711,113 and surplus of \$23,000,000. These figures compare with total earnings of \$48,710,644, net income of \$3,671,113 and surplus of \$18,000,000 for the same quarter of 1914. Total earnings for 1915 were \$130,125, compared with \$117,446,315 in 1914. On the basis of reports received for the quarter of 1915 and with orders ready in hand, it is believed the steel corporation's earnings for 1916 will run into unprecedented figures. In the fourth quarter of 1915, when men's earnings were at their highest, additional earnings were only \$10,000,000, and net income \$3,711,113, after taxes and depreciation amounting to \$1,558,000 had been made. For the quarter of 1915 charges and deductions, together with other adjustments, amounted to \$10,000,000, or more, despite which the net income is larger by over 600 per cent than at the close of 1914.

EVIDENT DISTRIBUTION AMOUNTS TO \$12,658,701

The outlay involved in the distribution of the common dividend amounts to \$12,658,701, which, with the regular quarterly dividend of 1 1/2 per cent on a preferred stock makes a total dividend distribution for the quarter of \$12,658,701. The monthly returns for the fourth quarter show that November earnings of \$17,700,310 were only \$424,563 larger than those of October, but December's total of \$18,100,000 exceeded November's by \$374,710. It is expected that the current month will exceed the output, and consequently the annual returns of last December. United States Steel common was the prevailing feature of the stock market, with an overture of \$22.00, and a high of \$24.00. The quarter of 1915, the steel corporation's total operations. Steel ended at a substantial advance over a previous day's close, made a maximum quotation of \$24 and closed at \$24.00, a net gain of \$2.00. Following the dividend announcement and publication of the quarterly statement, bids as high as \$24 were made for the stock at private sale, presumably by some related parties.

REAL ESTATE AND COURTS

The local real estate market was active yesterday, with sales for the day aggregating nearly \$50,000 for city property. Henrico County lands were active, with several sales of small property. In the city the dealing was confined in the main to small property, though there were two or three deals in the larger order. P. J. Beattie sold to Arthur Levy a fronting thirty feet at the southeast corner of Stuart Avenue and Robinson Street. The property, which improved, sold for \$28,000, according to the tax paid on the deed in the Henrico County Court. This was the largest sale to date. The New York Life Insurance Company filed a deed releasing the property at the northeast corner of Seventh and Broad streets, held by it as surety on a bond of \$100,000. by what may be called the "natural" treatment. This is based on plenty of fresh air, a sufficient quantity of pure food and as large a measure of rest as can be had. While it should never be neglected, this treatment does not always secure the desired results. Sometimes there is need for greater aid in order to bring about the requisite body resistance. In such cases Eckman's Alternative has been used with a large measure of success. Indeed, in many instances, tuberculous appendicitis has yielded to this preparation. In any case it is worth a trial, and since it contains no harmful ingredients, it is a safe, soothing drug, its use is safe. Sold by Druggists and leading druggists. Eckman Laboratory, Philadelphia.

ONE MORE WITNESS AND STATE WILL REST

Defence Then Will Begin Its Efforts to Free Mrs. Mohr of Murder Charge.

PROVIDENCE, R. I., January 25.—

Testimony was introduced today at the trial of Mrs. Elizabeth F. Mohr and two negroes, charged with the murder of the woman's husband, Dr. Franklin C. Mohr, showing that on the day Dr. Mohr died his widow petitioned the Municipal Court to have herself appointed custodian of his property. She filed at the same time a petition to be named administratrix. The prosecution submitted this evidence in support of the theory outlined to the jury in the opening argument, that Mrs. Mohr's motive for the alleged instigation of the negroes to kill her husband was partly her desire to gain control of his property. To offset this impression, the testimony might make, the defense, in cross-examination of Milford D. Rogers, clerk of the Probate Court, drew from him the statement that it was customary to file petitions for custodianship immediately to protect the property. It was brought out that a second petition for custodianship was signed by Mrs. Elizabeth F. Mohr and Charles M. Mohr of Baltimore, Md., sons of Dr. Mohr, while the third petition filed by the widow made no mention of Charles M. Mohr as her relative. In cross-examining several newspaper men who had testified in corroboration of the police officers' testimony relative to alleged confessions of the negroes, Cecil Brown and Henry H. Spellman, William H. Lewis, of counsel for the defense, indicated that he probably would attempt to convince the jury that when Brown and Spellman stated that they killed Dr. Mohr on Mrs. Mohr's promise to pay them \$5,000, they were joking. Ralph Bailey, one of the reporters, testified that Brown admitted shooting the doctor, and that Spellman said he shot Mrs. Mohr, but that he understood Mrs. Mohr wanted the doctor slain so that she could get his property. When court adjourned Attorney-General Rice said that he had one more witness to present before the State rested its case. The defense will open to-morrow.
